

DD/M&S 74-1495

30 APR 1974

MEMORANDUM FOR: Chief, Information Systems Analysis Staff

SUBJECT : Watergate File Review - Office of the DD/M&S

1. A review of the files of the Office of the DD/M&S (and DD/S) covering the years 1969 - 1974 to date has been completed. A list of the files reviewed is attached at Tab A; a list of files not reviewed is attached at Tab B; copies of documents which may be relevant are attached at Tab C; and extracts from diary and handwritten notes are attached at Tab D.

2. Titles of files which have not been reviewed are sufficiently descriptive to support the presumption that they would contain nothing relevant. Documents in files reviewed were not read word for word unless the stated subject contained language which suggested that a further reading might be worth the time it would take. Documents the subject of which relates to an unidentified cryptonym were not reviewed in detail, the presumption being that they will be reported by the component responsible for the program or project if they are relevant. Documents which have been identified either originated at or were sent to other echelons of the organization and presumably will duplicate reporting from those components if, in fact, they are relevant. One group of such documents not copied or attached because of its bulk and doubtful relevance deals with actions taken by offices in this Directorate during 1971 to

who held security clearances. The information these documents contain was compiled in response to requests from the Executive Director-Comptroller and sent to him at the time. They may have been reviewed as a part of the Executive Registry file review. If not, they can be made available from our files for review if they seem to be of potential interest.

  
Chief, DD/M&S Plans Staff
